The QHN platform allows for flexibility in the usage of the system. The ability to search and filter results is a quick way to assist Users access the information they need.

- Login at: QualityHealthNetwork.org
- The default Patient Search landing screen will display.
- Click Cancel, click outside of the white box, or hit the Esc key to close this screen, if you do not want to search for a Patient.
- Click on the area you would like to access, My Results or Organization Results.
- You may see No Items Found as this view defaults to the results received in the last 24 hours.
- Click on Advanced Search.

- The Advanced Filter window will open.
Results Advanced Search & Filters

- In the Advanced Filter window select from the Received and Type search criteria.
- You may also select the number of results you wish to be displayed.
- If you wish to further narrow your search you may also enter Demographic Criteria. You do not have to complete all the fields.
- Click Submit.

Another way to further narrow your search is to click on Additional Criteria. This will open a drop-down selection window that allows you to select the data source.
- Once all desired search filters are selected, click Submit.
