(1) Click the eHT HIE WORKLIST tab. (2) When you click on that tab this screen opens. (3) You will need to click on “Load” (Cached) if the images have not yet been loaded to view the image(s) to view. The status will be green when loaded and yellow if they need to be loaded. In the multiples column, ORG refers to the originating source and Copy is the source that has transferred the image.

The screenshot shows the 'Available Studies for This Patient' table. A green circle with the number '4' highlights a checkmark in the first column. Another green circle with the number '5' highlights the 'View Studies' button at the bottom left.

(4) Once the images are loaded; you will put a check mark next to the images you want to view. (5) Then click on View Study. All columns are sortable at the top of each column except the MRN column.

# HIE Worklist

(6) You can now view the images side by side. You can also drop and drag different images into each section for comparison.

**TIP-** you can also get to the eHT HIE Worklist area from the radiology report itself.
