

QHN has live HIE-to-HIE data exchange with the eastern slope Colorado HIE (CORHIO), the Utah Health Information Network (UHIN), and Arizona Health-e Connection (AzHeC). This state-to-state HIE connection is an important step towards ensuring that providers have access to patient information when they are treating a patient whose primary residence is in a contiguous state or when an episode of care occurs out of the state. HIE-to-HIE data exchange is making QHN an even more valuable resource for you. This type of exchange will soon be expanding to other HIEs.

## Access documents from another HIE:

- Navigate to the **Patient Summary** section for the patient of interest.
- In the encounters clinical sections you may note “Admissions” from out of state sources. The hover-over provides details.
- Clicking encounter provides **External Document Search** instructions.
- Click **External Document Search** screen below opens.
- Click **Submit External Document Search** in the Patient Actions panel.

Role\*: Provider/Care Team Membe

Reason\*: This search is in compliance

Authorizing Provider: Leave blank.

Submit Cancel

Leave these sections as defaulted. The information available from the out-of-state source is unknown. The default selections will provide the most clinical information.

Leave date ranges blank **unless you are querying the VA**. If querying the VA, please enter a date range. Otherwise, more results than the query can process will try to be retrieved and may cause it to fail.

Leave default **unless querying the VA**. If querying the VA, change "Reason" to "Treatment."
