

QHN users are now able to access patient information from sources that offer treatment for substance use disorders:

- Mind Springs Health and West Springs Hospital
- The Center for Mental Health, Montrose, CO area
- River Valley Family Health Center

If a patient’s record in QHN contains information from any of the above sources, the QHN user will be alerted by a pop up message, as shown in the screenshot below. Follow these instructions:

- (1) Read the message and affirm that you have a treating relationship with the patient
- (2) Click on the button “Unlock Consent Data”

The screenshot shows the QHN interface for a patient named 'Patient5, Consent'. A yellow pop-up message titled 'Consent Data Notice' is displayed, stating: 'This patient may have additional information that is subject to HIPAA and other laws and regulations. By clicking on "Unlock Consent Data" below, you will affirm that you have a treating provider relationship with this patient prior to accessing this information.' Below the message is a button labeled 'Unlock Consent Data', which is circled in red. A green circle with the number '1-2' is overlaid on the top right of the screenshot. The interface also shows a sidebar with 'Patient Actions' and a main content area with tabs for 'Summary', 'More Patient Information', 'External Document Search', 'Patient Groups', 'Patient Documents', 'eHT HIE Worklist', 'PDMP', and 'Lab Charts'. The 'Summary' tab is active, showing 'Ambulatory Encounters (0)', 'Inpatient Encounters (0)', and 'Conditions (0)'. A table of 'Laboratories (1)' is also visible, with one entry: '06/01/2013 ACETAMINOPHEN ... DCMDMO'.

Break the Glass

Next, there will appear another pop up message, as shown in the screenshot below:

(3) Read the message

(4) If you can affirm that you have a treating relationship with the Patient and that your access and/or re-disclosure is/will be compliant with Federal Regulation, C.F.R. Title 42, Part 2, then

(5) Indicate your reason for breaking the glass by selecting from the “drop-down” menu, then click the button: “Break the Glass”

The screenshot shows a patient record for 'Patient5, Consent' (Male, 05/05/1965, 54 yrs) with a community ID of 200000020708. The patient's address is 20 Gatsby Dr, Grand Junction, CO 81501. A modal dialog box titled 'Consent: Break The Glass' is open, displaying a yellow warning message: 'Patient health information may be from data sources subject to Federal Regulation, C.F.R. Title 42, Part 2, which restricts your access and re-disclosure of this information. The patient has authorized disclosure of this information to treating providers through QHN. By clicking on "Break the Glass", below, you are certifying that you have a treating provider relationship with the patient that is compliant with said regulation, which allows you to access the information. Further, you agree that your use and any re-disclosure of the information will be in compliance with C.F.R. Title 42, Part 2 and other applicable regulations.' Below the message is a text input field labeled 'What is your reason for breaking the glass?'. At the bottom of the dialog are two buttons: 'Break The Glass' (circled in green) and 'Cancel'. A green circle with the text '3-5' is overlaid on the dialog box. The background shows a sidebar with navigation options and a main content area with various data sections like 'Ambulatory Encounters', 'Laboratories', 'Immunizations', and 'Vitals'.
